

*Counts shown reflect the number of confirmed cases as of 11/23/21 using the date of first positive sample collection. Where date of first positive sample collection were not available, the date of report creation in GA SENDSS was used instead. **Note: All data reported are preliminary and subject to change. Delays in data reporting may cause changes in data counts, particularly within the last week.

- As of November 23, DeKalb County has reported 81,228 confirmed cases of 2019 novel coronavirus disease (COVID-19) and 1,237 confirmed COVID-19 deaths, an increase of 111 cases (+0.1%) and 1 death (+0.1%) since the last report on November 22.
- During the week of 11/16 11/22, there were 63 COVID-19 cases per 100,000 people in Dekalb, which is defined as "substantial" community transmission by the CDC
- 637 COVID-19 cases (80 cases per 100,000 population) were diagnosed in the most recent 14day period (11/4-11/17), a <u>6.7% DECREASE</u> from the previous 14-day period (10/21-11/3)
- Of all persons diagnosed with COVID-19 in DeKalb, 8.0% needed hospitalization and 1.5% died
- As of November 23, Georgia Department of Public Health reported that DeKalb accounted for 6.3% of the total number of COVID-19 cases in Georgia to date
- As of November 23, Georgia Department of Public Health reported that DeKalb has administered 918,763 vaccines, and has 447,116 residents with at least one dose (60%) and 397,512 fully vaccinated residents (53%)

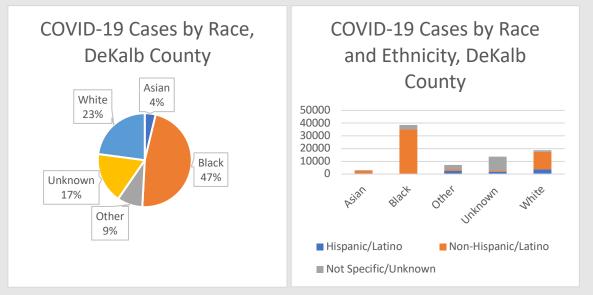

*Counts shown reflect the number of confirmed cases as of 11/23/21 using date of collection. All data reported are preliminary and subject to change. Positive cases from the last 7 days (gray area) are still being collected, and likely to increase.

*Counts shown reflect the number of confirmed cases as of 11/23/21 using date of report creating in GA SendSS. All data reported are preliminary and subject to change.

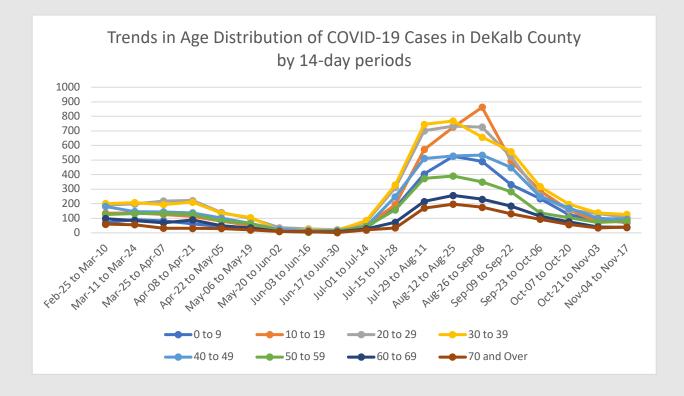

Demographic Distribution of COVID Cases

Unknown	2115	2114	2.6%	6	17	183.3%

*To account for reporting lag of new diagnoses, the 14-day periods were calculated from a week prior. Data cleaning may lead to reassignment of cases from one territory to another based on corrected addresses which may appear as "decreases" when compared to previous counts. Zip codes with fewer than 5 cases reported were omitted from the table. "Unknown" includes Dekalb residents without a zip code or with an incorrectly entered zip code.

*Counts shown reflect the number of vaccinated residents as of 11/23/21 using the date of administration. A completed vaccination course refers to an individual receiving two doses of a two-dose series, or one dose of a one-dose series. Individuals are considered fully vaccinated 14 days after their final dose. **Note: All data reported are preliminary and subject to change. Delays in data reporting may cause changes in data counts.

Vaccination Demographics

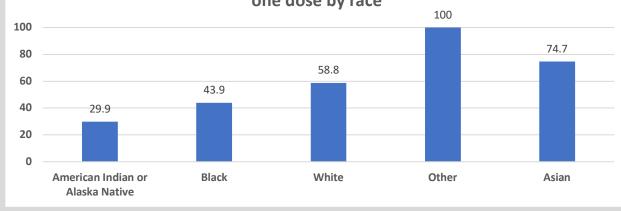

Percent of residents (within that demographic) with at least one dose by ethnicity

Percent of residents (within that demographic) with at least one dose by gender

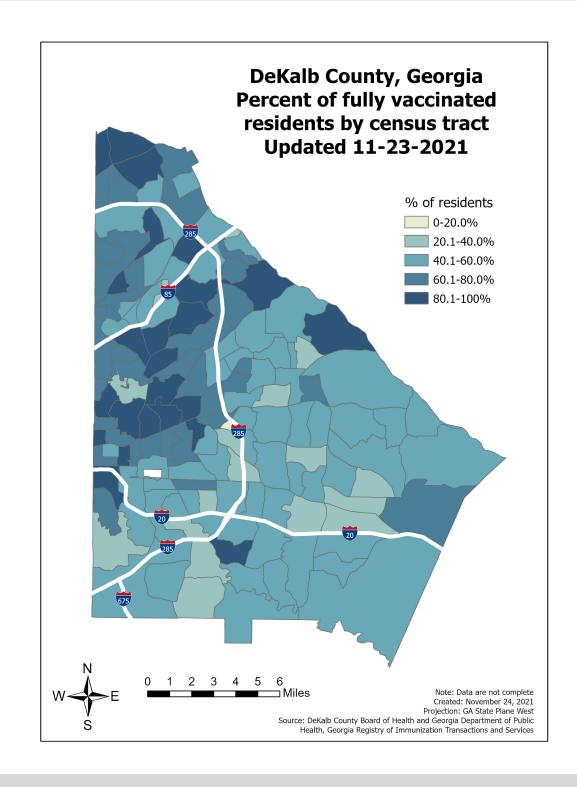

Percent of residents (within that demographic) with at least one dose by race

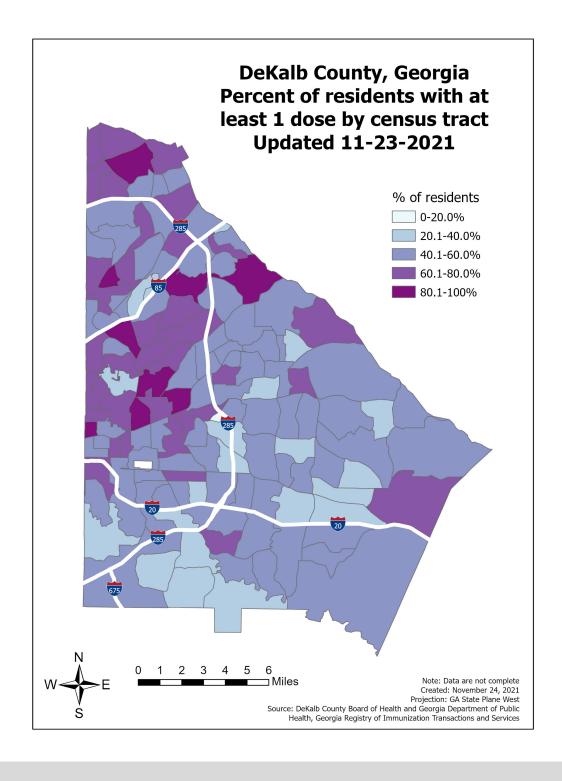

Counts shown reflect the number of vaccinated residents as of 11/23/21 using the date of administration of the first dose. These graphs do not include: 768 individuals (0.2%) with unknown gender, 20,689 individuals (4.6%) with unknown race, and 51,384 individuals (11.5%) with unknown ethnicity. All age groups containing children under 12 have a lower percentage in part due to vaccination not being available to children under the age of 12 until recently. **Note: All data reported are preliminary and subject to change. Delays in data reporting may cause changes in data counts, particularly within the last week.

Map by Fully Vaccinated

*Note: An individual is considered fully vaccinated if it has been at least 14 days (2 weeks) since the completion of the COVID-19 vaccination series (two doses in a two-dose series OR one dose in a one-dose series). Data obtained from the Georgia Department of Public Health's COVID-19 vaccination dashboard, last updated on 11/23/2021

Map by Partially Vaccinated

*Note: Data obtained from the Georgia Department of Public Health's COVID-19 vaccination dashboard, last updated on 11/23/2021
